Desktop Procedure: P-Account Password Change – 1.0

1.0 Overview

This document contains the information the FSA (Farm Service Agency) Access Management Team needs to change and reset Network Access Gateway (NAG) ID (P-Account) passwords. DataStage Developers must change their NAG ID, also known as P-Account, passwords every 30 days and cannot reuse previous passwords.

Note: P-Accounts begin with *P* and are followed by the first four letters of the user's last name, then the first letter of the first name, followed by 01 or 02 if a name is shared.

1.1 Methods to Change Passwords

Depending on the situation, there are two ways to change a P-Account password:

1. Changing the P-Account password before it expires.
2. Resetting the P-Account password when it is expired or unknown.

For questions, contact the DataStage Admin Team: mokansasc2-KCC-ETL@one.usda.gov.

2.0 Changing a Password

To change the P-Account password:

1. Open an Internet browser.
2. Navigate to the NITC (National Information Technology Center) NAG website with the following link:

https://nag.edc.usda.gov/dana-na/auth/url_default/welcome.cgi

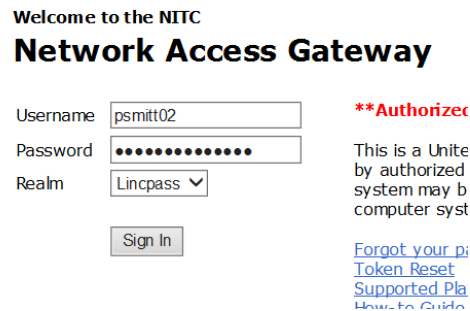

Figure 1: Signing in to NITC NAG

3. In **Username**, type the user name.
4. In **Password**, type the password.
5. In the **Realm** drop-down list, select the **Lincpass** option.
6. Click **Sign In**; a **Windows Security** dialogue appears.

Note: If you are unable to log in, see **Section 3.0** Error! Reference source not found. **Resetting an Unknown or Expired Password**, page 4.

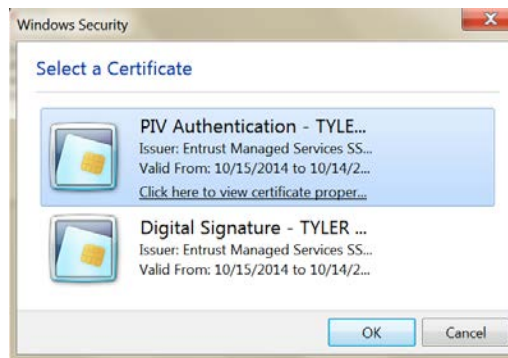

Figure 2: Windows Security Dialogue

7. Select **PIV Authentication**.
8. Click **OK**; the **Welcome** page appears.

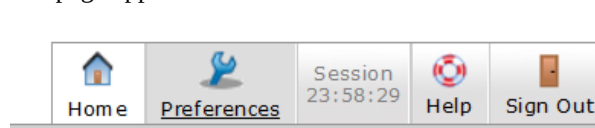

Figure 3: NITC Homepage Toolbar

9. Click **Preferences**; the **Preferences** page opens.

Desktop Procedure: P-Account Password Change – 1.0

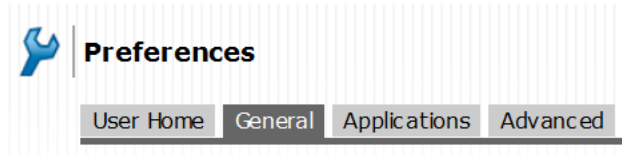

Figure 4: Preferences Page

10. From the **Preferences** page, select the **General** tab; the **Change Password** option appears.

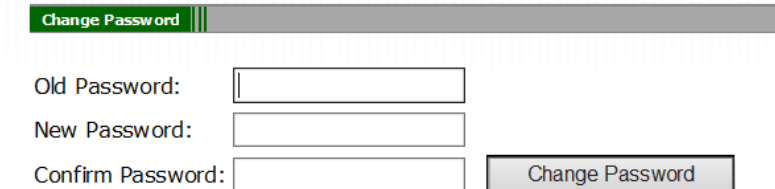

The image shows a 'Change Password' form. At the top, there is a green button labeled 'Change Password'. Below it are three text input fields: 'Old Password:', 'New Password:', and 'Confirm Password:'. To the right of the 'Confirm Password' field is a grey button labeled 'Change Password'.

Figure 5: Change Password

11. From the **Change Password** option, enter the current password in the **Old Password** field.
12. In **New Password**, enter the new password.

Note: New passwords must be at least 12-characters long and must contain characters from three of the following categories: uppercase letters, lowercase letters, numeric digits, and non-alphabetic characters (e.g., !, \$, #, %).

13. In **Confirm Password**, re-enter the new password.
14. Click **Change Password**; a confirmation message appears on the page.

Note: Do not change **Screen Size** and **Color Depth** because it does not affect your password change.

3.0 Resetting an Unknown or Expired Password

If the P-Account password is unknown or expired, please call or email SM.FSA.ESC.Access-Management at 800-255-2434 or ESC.AM@kcc.usda.gov.
